

## OUR CARE

Bonehill Lodge is managed by a qualified Care Management team who produce care plans tailored to each resident's particular needs. The trained and experienced staff are on duty 24 hours so our residents are able to receive continual care, companionship and security

We offer a comprehensive range of visiting specialists from chiropody, physiotherapy, hairdressing (provided weekly in our purpose built salon room), beauty and skin care. We also cover dental and optical problems. Our dedicated members of staff provide the support that each resident needs in order to maintain their independence, dignity and freedom of choice.

Bonehill Lodge aims to provide an attractive, tastefully furnished, caring environment and encourages independent living wherever possible. We motivate individuals to be as alert and active as possible by offering regular activities within the home and out in the local community. Residents are encouraged to retain their existing G.P.'s if possible, however alternative arrangements can easily be made by the Care Manager if needed.

A full personal laundry service, excluding dry cleaning, is included in the fees.

## RESPIRE CARE

Caring for a loved one can be rewarding, but sometimes a short break and having some time off is necessary for both of you. This gives carers the time to recharge their batteries in the knowledge that their loved ones are receiving 24-hour care. However Bonehill Lodge can only provide respite care when a room becomes available between our permanent placements. You can consider respite care if you fall ill and need additional support or if you are planning a holiday and require someone to look after your loved one while you are away. Respite care also gives you the chance to 'get to know' a care home, the way it works, its staff and the other residents. This could be a real benefit for the future, should your care needs change and a more permanent move to a care home becomes necessary.

## BONEHILL LODGE RESIDENTIAL HOME

Situated in lovely surroundings in the heart of Tamworth, Bonehill Lodge is a charming period property dating originally from the 19th Century.

A wide variety of local shops and facilities including pubs, restaurants and open countryside are only a few moments walk away. The accommodation has been built to the highest standards and designed to create maximum independence for residential and short stay residents in a homely and friendly atmosphere.

There are many activities adapted and designed for our residents to look forward to and enjoy. Our varied activities program incorporates all national and local celebrations. We try not to overlook any one occasion that we feel may be of an interest in some way to any of our residents.

Experience has shown that the Bonehill Lodge philosophy of promoting active minds and bodies improves well-being. Residents often begin to enjoy new activities or take part in outings that they previously thought were impractical or impossible. Some of the activities we offer here at The Lodge are gentle chair exercise sessions, communication therapy, painting and crafts, weekly news and current affairs discussions, sing - along songs and musical sessions. Memory lane reminiscing activities are a priority, we also partake in card and board games, weekly quizzes, daily walks and pets as therapy.

Our Manager and Activities Coordinator keeps in contact with resident's family and friends who are invited to attend any of the activities and events that are held here at Bonehill Lodge. We regularly take our residents out on trips to destinations of their choice (pub lunches, shopping trips, numerous theatre visits, garden centres, and coffee shops), we also like to go further afield on day trips and holidays.

## GROUNDS & GARDEN

The resident's sensory garden provides a secure retreat in which to relax and watch many types of birds and wildlife. The sensory garden also has a pond, water feature and pergola for our resident's and their families to enjoy, especially during the summer months.

## CATERING

Great importance is placed at Bonehill Lodge on providing quality and choice for residents with attractive and varied menus. We pride ourselves in providing fresh, wholesome, well balanced and nutritious home-cooked food. Tea and coffee are always available for our visitors. Special diets can always be catered for. Meals are served in either the residents rooms, or in our delightful cafe style dining room.

Bonehill Lodge menus are designed to offer in season alternatives, preparing lighter options during the summer months and more comforting food during the winter months, including diets rich in sources of: protein, carbohydrates, vitamins, minerals, pulses, grains, dairy products and good fats as well as the necessary 5 a day: fruits and vegetables required to maintain a healthy diet.

## ACCOMMODATION

We have 25 single bedrooms and 1 shared room with en-suite facilities creating maximum comfort and privacy. Each room is decorated with colourful tones with matching soft furnishings. They are all equipped with technology to provide a safe, secure and reassuring environment. An advanced nurse call system is installed in the home with emergency call bells in each room.

Rooms here have bright airy windows. Garden rooms have French doors leading directly onto the patio and grounds.

Private telephones can be connected to each bedroom if required and television plug in points are available. Although each room is furnished, Residents can bring their own belongings into the home to create a more personal and individual style within their room should they wish to do so.

## LOCAL COMMUNITY

Local school children and community groups play a large part at Bonehill Lodge. We receive regular visits to entertain us, invites to special local events and even have a pen pal system in place. We have regular contact with local schools and colleges offering students placements of work experience when studying Health and Social Care courses.

We are also lucky to work with a number of supportive community services who host some of our day trips out and about and regularly keep in touch with Residents.

## ENTERTAINMENTS

A variety of quality entertainers visit Bonehill Lodge offering music, dance, theatrical performances, pantomime and other interesting recreational activities. We have sing-along, easy listening, swing, classical singers, groups and choirs. Music and live performance is always a very welcome component to our programmes and appear to be looked forward to and enjoyed by most of our residents.

Included amongst our regular visitors are local clergy from all denominations offering Holy Communion services once each month to residents. Charity fund raising events are organised from time to time - these are hugely popular and well supported by the local authority, families and friends.

## OUTINGS & DAY TRIPS

Places such as Weston Super Mare and Blackpool are just one of the destinations for our days out as we like to travel far and wide. We regularly take trips into the local community and further afield when we are able - local Garden Centres, The Vineyard, local beauty spots, Arboretums, shopping centres and beautiful parks have all become regular destinations for us.
